

Customary Measurements

Length

$$1 \text{ foot} = \underline{12} \text{ inches}$$

$$1 \text{ yard} = \underline{3} \text{ feet}$$

$$1 \text{ mile} = \underline{5280} \text{ feet}$$

Mass

$$1 \text{ pound} = \underline{16} \text{ ounces}$$

$$1 \text{ ton} = \underline{2000} \text{ pounds}$$

Liquid Volume

$$1 \text{ cup} = \underline{8} \text{ ounces}$$

$$1 \text{ pint} = \underline{2} \text{ cups}$$

$$1 \text{ quart} = \underline{2} \text{ pints}$$

$$1 \text{ gallon} = \underline{4} \text{ quarts}$$

Capacity - the amount that
something can hold
